

GRANDMOTHERS SPEAK

~ VOC ONLINE CORRECTION

Originally incorrectly attributed to another set of Grandmothers - this article comes from Grandmothers Speak. There are many groups of grandmothers sharing wisdom around the planet - My apologies for the confusion.

We ask you to cast, anchor, and hold the Net of Light steady for the Gulf of Mexico . This crisis is affecting the entire world, and humanity is asleep. Wake up! Animals are dying, plants are dying, and your Mother is writhing in agony. If you hold the Net of Light steady at this time you will help stave off further catastrophe.

You have been lulled into a false sleep, told that others (B.P.) will take care of this problem. This is not so. And this is not the time for you to fall into oblivion. Determine now to stay awake, and once you have made that commitment, think of, cast, and hold the Net of Light. Hold it deep and hold it wide. Amplify its reach to penetrate the waters of the Gulf and dive deep beneath the crust of Mother Earth. Anchor it at the earth's core and as you hold it there, ask it to unify with the mineral kingdom of this planet. It will do this and will harmonize with all the solid and liquid mineral states on earth-including oil and gas. The Net of Light will call these minerals back into harmony.

Whatever human beings have damaged, human beings must correct. This is the law. We repeat: This is the law. You cannot sit back and ask God to fix the mess humanity has created. Each of you must throw your shoulders to the wheel and work. We are asking for your help. Several years ago we gave you the Net of Light so you would be able to help the earth at times like this. Step forward now. This is the Net of Light that will hold the earth during the times of change that are upon you.

First move into your heart and call on us. We will meet you there. The Net of Light is lit by the jewel of your heart, so move into this lighted place within you and open to the Net of which you are a part. Bask in its calming presence. It holds you at the same time that you hold it. Now think of magnifying your union with us. We, the Great Council of the Grandmothers, are with you now, and all those who work with the Net of Light are also with you. There are thousands, even millions now connected in light. Along with this union, call forth the power of the sacred places on earth. These will amplify the potency of our joint effort. Then call on the sacred beings that have come to prevent the catastrophe that threatens to overwhelm your

A Net of Light We Work Together

planet. We will work together.

Think of, cast and magnify the presence of the Net of Light in the Gulf of Mexico . See, imagine or think of it holding the waters, holding the land, the plants, the sea life, and the people, holding them all! The Net of Light is holding them steady; it is returning them to balance. Let the love within your lighted heart keep pouring into the Net of Light and hold, hold, hold. Calmly and reverently watch as the light from your heart flows along the strands of the Net. It will follow your command and continuously move forth. As soon as you think of it, it will happen. We ask you to practice this for only a few minutes at a time, but to repeat it throughout the day and night.

We promise that this work with the Net of Light will do untold good. We are calling you to service now. You are needed. Do not miss this opportunity.

We thank you and bless you. <http://www.grandmothersspeak.com>
